How does ending "welfare for illegals" who already are here prevent fentanyl crossing the border? We can increase border security while permitting lawful immigration at the border and upholding our moral and legal obligation to grant asylum to those fleeing violent oppression.

Cut all funding for sanctuary cities is putting America first? Those cities are no longer in America? Or are we picking and choosing which Americans we support?

Yeah, the border with Canada must be a really big issue there in Ohio.

So, it's not at all curious that a 42-year-old suffered two strokes a day after being attacked by rioters?

Alex Jones is a far more reputable source of information than Rachel Maddow.

One of them is censored by the regime. The other promoted by it.

Glenn Greenwald @ggreenwald 5. sep. 2021
Why is this viral @Maddow tweet spreading a totally false story still up? Why doesn't it have a "DISINFORMATION" label appended to it by @TwitterSafety? Why hasn't Maddow herself removed it? Why hasn t Twitter?

Yes, these are rhetorical questions. twitter com/maddow/status/..

How does ending "welfare for illegals" who already are here prevent fentanyl crossing the border? We can increase border security while permitting lawful immigration at the border and upholding our moral and legal obligation to grant asylum to those fleeing violent oppression

US Senate cand date, OH

Biden's open border policies are bringing crime & deadly fentanyl here. Americans are dying because of it.

Finish the wall. End welfare for illegals. Cut all funding for sanctuary cities.

Secure the border. Protect our citizens. Put America First.

Cut all funding for sanctuary cities is putting America first? Those cities are no longer in America? Or are we picking and choosing which Americans we support?

Yeah, the border with Canada must be a really big issue there in Ohio

Netanyahu is concerned about the risk of nuclear war because he's a responsible statesman. Kudos to him for doing what so many American "leaders" fail to do: stating the obvious.

> **David Sacks** @DavidSacks Oct 23
> Netanyahu is also very concerned about the risk of nuclear war in Ukraine One can hear this sentiment from leaders all over the world — except the United States Our leaders are sleepwalking

The only people turning our schools into a culture war battleground are Tim Ryan and his bosses at the teachers unions. Sorry, Tim, I don't want my children learning about explicit sexual content at the age of 8. I'm sorry that you and Randi Weingarten disagree.

Don't be fooled by jd now sucking up to the tRumps He s only doing it for political gain

Trump's rise, and I think the entire party has only itself to blame. We are, whether we like it or not, the party of lower-income, lower-education white people, and I have been saying for a long time that we need to offer those people SOMETHING (and hell, maybe even expand our appeal to working class black people in the process) or a demagogue would. We are now at that point. Trump is the fruit of the party's collective neglect. 3) I go back and forth between thinking Trump is a cynical asshole like Nixon who wouldn't be that bad (and might even prove useful) or

Ryan wanted to decriminalize fentanyl. Now he wants it declared a weapon of mass destruction. The only difference is that three years ago he was trying to scam a different group of voters than he is today.

foxnews.com
Vance calls Ryan's pledge to decriminalize 'all drug possession' a 'slap in the face' of victims'...
Ohio Senate candidate Tim Ryan introduced a resolution to label fentanyl a "weapon of mass destruction," but he made a pledge with the ACLU to decriminalize "all drug possession."

There are dozens of people who protested on J6 who haven't even been charged with a crime yet are being mistreated in DC prisons. A friend suggested the below link if you're able to support them.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their capt vity is an assault on democracy

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many peop e are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy

If you can't give, maybe cons der writing a letter or offering words of encouragement. Many of these prisoners are veterans who served their country honorably and are accused of nothing. They are our people. Help them if you can.

If you can't give, maybe cons der writing a letter or offering words of encouragement. Many of these prisoners are veterans who served their country honorably and are accused of nothing. They are our people. Help them if you can.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

If you can't give, maybe consider writing a letter or offering words of encouragement. Many of these prisoners are veterans who served their country honorably and are accused of nothing. They are our people. Help them if you can.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

If you can't give, maybe consider writing a letter or offering words of encouragement. Many of these prisoners are veterans who served their country honorably and are accused of nothing. They are our people. Help them if you can.

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

@JDVance1
US Senate candidate, OH

Even if the very worst of the Democrats' claims about J6 are true (they're not), it is an insult to all of us that so many people are rotting in prison without being offered a speedy trial. These people are political prisoners, and their captivity is an assault on democracy.

If you can't give, maybe consider writing a letter or offering words of encouragement. Many of these prisoners are veterans who served their country honorably and are accused of nothing. They are our people. Help them if you can.

Alex Jones is a far more reputable source of information than Rachel Maddow.

One of them is censored by the regime. The other promoted by it.

Why is this viral @Maddow tweet spreading a totally false story still up? Why doesn't it have a "DISINFORMATION" label appended to it by @TwitterSafety? Why hasn't Maddow herself removed it? Why hasn't Twitter?

Yes, these are rhetorical questions. twitter com/maddow/status/..

Vote for @TimRyan, the only candidate that has spent his entire life working for the people of Ohio, not Vance who is just a errand boy for Peter Thiel.

Glad you had a packed house, but that's less impressive when the house only holds 300. I had Econ 101 lectures with more students than that.

Like all Republican Lawmakers and Candidates, J.D. Vance uses "fear of crime" and "border crisis" language to distract from Republican extremism, women's rights, the 1/6 attempted coup and stolen national security documents

If your worldview tells you that it's bad for women to become mothers but liberating for them to work 90 hours a week in a cubicle at the New York Times or Goldman Sachs, you've been had.

US Senate candidate, OH

I love our first ad, where my favorite person tells my story. We fight for Ohio because it's our home, and when I was a kid, Ohio gave me a chance.

The Facebook oversight board has more power than the United Nations.

Conservatives were right to worry about giving our sovereignty away to a multinational institution. We just picked the wrong one.

The preference is because the trade-off for less than 4-year degree doesn't make sense while it does for 4 year degree. Daycare is more expensive than the job would pay the less than 4-year degree

One of the best arguments for immigration restriction is that we're clearly unable to take care of the people already here. Why let in a large number of desperate newcomers when many of our biggest cities look like this? twitter.com/ccpecknold/sta...

I've seen enough bad election analysis from people with no skin in the game. Here's a candidate's view of some problems with the midterms:

People don't like Trump and they don't want the Evangelical Taliban telling people when they get medical care (or not) and where people have to poop (it's North Carolina) or the type of sex they are permitted to have (missionary, in the dark, male&female, no toys)

Nice strawmen. "Gender affirming care" & abortions are not merely medical care, & women don't want men in women-only spaces

Here's Tim Ryan, the pretend moderate, calling for a release of half of all federal inmates. This is dangerous, and we need to vote to reject it in November.

Serious question: I have to go to New York soon and I'm trying to figure out where to stay. I have heard it's disgusting and violent there. But is it like Walking Dead Season 1 or Season 4?

Serious question: I have to go to New York soon and I'm trying to figure out where to stay. I have heard it's disgusting and violent there. But is it like Walking Dead Season 1 or Season 4?

Are you actually saying a giant multinational tech monopoly and a small bakery are somehow equivalent? Driving to a different bakery is reasonable, being forced off of all major social networks is not.

Nick Fuentes has been a giant troll (and IMO dishonest) in his attacks against me. Don't care.

Tech companies control what we're allowed to say in our own country. It has to stop.

Short answer to this is BS. You can say whatever you want. But if you spouted BS to me as a reporter, I didn't put it in my paper. That was my decision, @jack can make such decisions at scale. As AJ Liebling said decades ago, a free press belongs to he who owns a press.

I can't get over how many weak-willed "conservatives" defend the right of "private companies" to censor US citizens. Wake up.

Two months later, during a December podcast interview with Scott DiMauro, president of the Ohio Education Association, Ryan claimed that it's time to "stand up for our public schools" amid school board protests from parents concerned over their child's curriculum, insisting that it is "craziness" and that potential educators do not want to be exposed to those parents.

Under the leadership of the corrupt OH GOP, Ohio public schools have dropped nearly 20 places in ~10yrs by GOP design

Bet JD doesn't even know that. Why should he? He lives in California & is running to represent Peter Thiel

JD doesn't care about Ohio or its public schools

What do you like best about Marjorie? Is it her continued insistence on comparing vaccines to the Holocaust? Or when she chased a Parkland survivor with a concealed weapon in her purse? Or when she lost her committee assignments? Be more specific, H .lb ly Effigy #MAGAIsOver

It says so much that JD Vance is "honored" to have the endorsement of vile Marjorie Taylor Greene who has defended the Jan 6 terrorists, spewed anti-Semit sm+ anti Muslim hate plus celebrates white nationalism. Once again today's GOP is a white nationalist, fascist movement!!

JD Vance cal s Democrats "scumbags" as political theater He graduated from Yale Law school and then made $ from Big Tech in Silicon Valley He smeared Trump as "reprehensible" but now he sucks up to him. In other words, JD Vance is a hypocritical, elitist scumbag

Proud to endorse @realDonaldTrump for President in 2024.

While others want to foolishly march us into WW3 over Russia and Ukraine, Trump is the only candidate running with the courage to stand up to the corrupt bipartisan foreign policy establishment.

We have sky high inflation and an economy now officially in recession. But don't worry, Tim Ryan and his Democrat buddies have a solution: tax credits for rich people to buy electric cars made in China. What a joke.

You might be right about that, but thank goodness it worked out for me the way it did. I'm sure you don't believe this, and that's ok, but I'm more grateful every year to have lost that race

And I have to disagree. I think I'm a pretty humorous scold much of the time

Why is it that Republicans always feel so compelled to show off how tough they (think they) are by flaunting their guns?

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone

operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone

operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

The response for the State of Ohio primarily rests with Gov DeWine, who has made statements and updates, though I question his methods. He's posted some things on twitter, but not enough, and you have to click a link to get a statement.

The response for the State of Ohio primarily rests with Gov DeWine, who has made statements and updates, though I question his methods. He s posted some things on twitter, but not enough, and you have to click a link to get a statement.

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone

operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

The response for the State of Ohio primarily rests with Gov DeWine, who has made statements and updates, though I question his methods. He's posted some things on twitter, but not enough, and you have to click a link to get a statement

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone

operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. We continue to monitor environmental reports from multiple agencies about the quality of the air and water in the region. I have heard alarming anecdotes about contaminated waterways and effects on wildlife. I encourage anyone

operate. These firefighters deserve our gratitude for their heroism; they also deserve equipment they need for their jobs. My office will continue to work with FEMA to ensure these firefighters get what they need. Local officials have also consistently encouraged me to ensure appropriate environmental testing continues. I am focused on that as well. My office will continue to engage with people on the ground, and deal with issues as they arise.

"Why did this happen? After the cleanup and safety of everyone is ensured, we will turn our attention to how to prevent this in the future. Many questions remain unanswered about the quality of the braking system used, the durability of the repair parts in the trains, and the Transportation Department's regulatory approach to our nation's rail system. Aside from this incident, there is a troubling trend of catastrophic infrastructure problems in our country, and more than a few reports of sabotage. My office will be investigating these concerns in the weeks to come.

"I am dedicated to ensuring that the relevant authorities do not use tests conducted as a permission slip to pack up and go home. This is a complex environmental disaster with impacts that may be difficult to assess in the short term. Long-term study will be imperative. As will long-term commitment to remediation by Norfolk Southern for the property damaged, the wildlife disrupted, and the community scarred by this accident.

"As always, my office stands ready to aid constituents facing pressing

The response for the State of Ohio primarily rests with Gov DeWine, who has made statements and updates, though I question his methods. He's posted some things on twitter, but not enough, and you have to click a link to get a statement.

Senator Vance Issues Statement On East Palestine Train Derailment

WASHINGTON, D.C. – Today, Senator JD Vance (R-OH) issued the following statement regarding the train derailment in East Palestine, Ohio:

"Like every Ohioan, I'm horrified by the Norfolk Southern train crash in East Palestine and the images we've seen coming from Northeast Ohio," **said Senator Vance.** "One week ago, local and state officials determined that to avoid a catastrophic explosion a controlled release of vinyl chloride would take place. This release is the source of the frightening plumes of black smoke that have made their way around social media. While those plumes of smoke are now gone, many questions remain.

"Is the air and water safe for residents? So far, we have been told that air and drinking water tests performed by the state and federal Environmental Protection Agencies, the Ohio National Guard, and Norfolk Southern have been encouraging. It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged

In 2018, the Association of American Railroads spent $4,737,989, and Norfolk Southern spent $1,025,330, lobbying to reverse the Obama-era ECP brake safety rule that was designed to prevent disasters like this

The Trump administration reversed it

Unless they live really close it will take a while for any contamination to reach their well. Norfolk Southern should be forced to install monitoring wells so people don't have to continually test their water to make sure it is safe

Unless they live really close it will take a while for any contamination to reach their well. Norfolk Southern should be forced to install monitoring wells so people don't have to continually test their water to make sure it is safe

Unless they live really close it will take a while for any contamination to reach their well. Norfolk Southern should be forced to install monitoring wells so people don't have to continually test their water to make sure it is safe

Unless they live really close it will take a while for any contamination to reach their well. Norfolk Southern should be forced to install monitoring wells so people don't have to continually test their water to make sure it is safe

Unless they live really close it will take a while for any contamination to reach their well. Norfolk Southern should be forced to install monitoring wells so people don't have to continually test their water to make sure it is safe

And don't trust any government or company agency

Important PSA for East Palestine: get your wells tested! Private well testing is free. We need to know the level of ground water contamination and private well testing gives us that info. Follow this link for info on how to get your wells tested:

It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged

In 2018, the Association of American Railroads spent $4,737,989, and Norfolk Southern spent $1,025,330, lobbying to reverse the Obama-era ECP brake safety rule that was designed to prevent disasters like this

The Trump administration reversed it.

It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged

It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged.

It's raining today. The particulates that fell in and on the valleys and hills are headed to your streams and rivers. This is more than East Palestine though they took the brunt of it. The entire Ohio and Mississippi valleys are poisoned now. Cleaning the tracks was top priority

It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged

Visited a local creek in East Palestine today. These waterways are still very polluted. It's time for Norfolk Southern to finish the cleanup. Check this video out:

It's raining today. The particulates that fell in and on the valleys and hills are headed to your streams and rivers. This is more than East Palestine though they took the brunt of it. The entire Ohio and Mississippi valleys are poisoned now. Clearing the tracks was top priority

It is a conundrum as all that soil will have to be dug out and put somewhere while the process of digging it out all out will damage that ecosystem. It will indeed take a lot of work to put that area back the way it was. It may take up to decade to restore what was damaged

In 2018, the Association of American Railroads spent $4,737,989, and Norfolk Southern spent $1,025,330, lobbying to reverse the Obama-era ECP brake safety rule that was designed to prevent disasters like this.

The Trump administration reversed it.

It's raining today. The particulates that fell in and on the valleys and hills are headed to your streams and rivers. This is more than East Palestine though they took the brunt of it. The entire Ohio and Mississippi valleys are poisoned now. Clearing the tracks was top priority

Hungary took in a million refugees from Ukraine, something Mr. flag-in-the-bio probably supports. Now he's dunking on a country of 10 million for the predictable supply shortages.

Natcons keep insisting that Orbán's Hungary is a haven of pro-family public policy. I'm not sure many families can prosper in a country with 25% inflation. ft.com/content/6074ab

Those 2.08 million Ukrainians who crossed into Hungary apparently believed that their families would face better prospects outside of Hungary than inside of it. (2) Hungary has a population of 9.7 million; it isn't plausible that a pop increase of 0.3% caused 25% inflation

We sent over $100b to Ukraine in the last year. For half that, we could make birth free in this country, end the surprise billings that devastate families with newborns, and possibly save the lives of a lot of new moms.

An interesting proposal:

Today I spoke with residents of East Palestine and met with local elected officials. I heard a lot of new questions and left with all sorts of concerns that need to be addressed

I won't stop working on this until people get the answers they deserve.

In 2018, the Association of American Railroads spent $4,737,989, and Norfolk Southern spent $1,025,330, lobbying to reverse the Obama-era ECP brake safety rule that was designed to prevent disasters like this

The Trump administration reversed it.

The white working class loved Donald Trump. As punishment, Joe Biden and Kamala Harris will kill as many of their children as they can.

You can buy a boatload of fentanyl patches from *at least* 4 major US corporations, buddy -- the drug that famously killed Tom Petty and Prince doesn't require smuggling. Nor will the < 8 cases per year this proposal affects have a statistically significant effect. Sit down

tory minimums would be excluded under the proposal. It note
pt "FRS offenses from existing mandatory minimums for case
ily injury can be directly linked to the FRS that was trafficked,
Schedule I or II controlled substance under 21 U.S.C. 841(b)(1)

epartment reported only eight cases with FRS charges from t
ss scheduling was adopted in 2018 through December 2020,
ncluded charges of quantity-driven mandatory minimums."

Not all mandatory minimums would be excluded under the proposal. It notes that it wouldn't exempt "FRS offenses from existing mandatory minimums for cases where death or serious bodily injury can be directly linked to the FRS that was trafficked, as is the case for any other Schedule I or II controlled substance under 21 U.S.C. 841(b)(1)(C)."

Germany's conduct in this war is disgraceful, and it's insulting to our voters that too many Republicans go along with it. All of their promises have materialized into manure. Why do American taxpayers subsidize idiotic German energy policy and weak defense policy? A mystery.

Elbridge Colby @ElbridgeColby · Mar 3
US relations with Germany should be in crisis. Instead Washington bends over backwards for Berlin. This has to change

"a year on, Germany's armed forces are in an even worse condition than when the war started, according to military commanders .." 1/

This isn't even about Ukraine any longer. Germany is the largest economy in Europe. Their energy policy is a disaster. Despite their promises, they are in many ways short of their pre-invasion military standards. If we had real leadership, German conduct would be a scandal

While there is still a lot of work to do for Germany, they have 1) driven down their energy dependency on Russia to zero within a year, 2) are Ukraine's #2 arms supporter 3) boosted defence expenditure, 4) buying LNG from the US for years to come.

Germany's conduct in this war is disgraceful, and it's insulting to our voters that too many Republicans go along with it. All of their promises have materialized into manure. Why do American taxpayers subsidize idiotic German energy policy and weak defense policy? A mystery.

How exactly are American taxpayers subsidizing Germany's energy policy?

1 44

Germany's conduct in this war is disgraceful, and it's insulting to our voters that too many Republicans go along with it. All of their promises have materialized into manure. Why do American taxpayers subsidize idiotic German energy policy and weak defense policy? A mystery.

Who s spreading this insane idea of a US armed intervention in Mex co to wage war on drug traffickers? If ever an idea were a mill on percent guaranteed to end in catastrophe for Americans and Mexicans alike, this is it.

Is this .

J.D. Vance says he regrets since-deleted tweets criticizing Trump

Critics have said the "Hillbilly Elegy" author and Senate candidate, who is seeking the former president's endorsement in Ohio, is flip-flopping.

J.D. Vance says he regrets since-deleted tweets criticizing Trump

Critics have said the "Hillbilly Elegy" author and Senate candidate, who is seeking the former president's endorsement in Ohio, is flip-flopping.

J.D. Vance says he regrets since-deleted tweets criticizing Trump

Critics have said the "Hillbilly Elegy" author and Senate candidate, who is seeking the former president's endorsement in Ohio, is flip-flopping.

Wait, why isn't Norfolk Southern cleaning up the mess they made? The GOP worked tirelessly to give greedy corporations like NFS all the self governance they lobbied for and now you want the government to help them after they banked billions in profits?

Here's why it's hard to clean up toxic waste from the East Palestine train derailment
Nearly two million gallons of wastewater and thousands of cubic yards of contaminated soil have already been removed from the site, with more to go. Every aspect of removal is governed by regulations

What a joke. Similar circumstances exist in 20 different counties. Should we kill thousands of Americans and spend over $1 trillion in each of them? The failure of our elites to own up to failures in Iraq proves that the country most in need of regime change is ours

I've been asked by multiple reporters if an indictment would lead me to rescind my endorsement of Donald Trump. The answer is: hell no. A politically motivated prosecution makes the argument for Trump stronger. We simply don't have a real country if justice depends on politics.

Justice can be perverted by politics in 2 ways: guilty not prosecuted or innocent prosecuted. Hunter is the former (guns, corruption). The evidence in Trumps case will determine whether he's guilty or innocent but he shouldn't walk away just because he used to be President.

Alvin Bragg is bought by George Soros. He allows violent criminals to walk the streets of New York City, but will prosecute the likely Republican nominee (and former president) on a baseless misdemeanor charge. These people are trying to turn America into a third-world country

Alvin Bragg is bought by George Soros. He allows violent criminals to walk the streets of New York City, but will prosecute the likely Republican nominee (and former president) on a baseless misdemeanor charge. These people are trying to turn America into a third-world country

You're in the part when republicans attack the prosecution and anyone else in order to establish someone other than trump as guilty in MAGA minds so they can repeatedly attack and victimize that person—often someone black and/or a woman—while pretending "trump is the real victim"

Alvin Bragg is bought by George Soros. He allows violent criminals to walk the streets of New York City, but will prosecute the likely Republican nominee (and former president) on a baseless misdemeanor charge. These people are trying to turn America into a third-world country

Alvin Bragg is bought by George Soros. He allows violent criminals to walk the streets of New York City, but will prosecute the likely Republican nominee (and former president) on a baseless misdemeanor charge. These people are trying to turn America into a third-world country

We're still learning about the horrific shooting in Nashville. But if early reports are accurate that a trans shooter targeted a Christian school, there needs to be a lot of soul searching on the extreme left. Giving in to these ideas isn't compassion, it's dangerous.

Biden is releasing illegal aliens from China with little more than a piece of paper promising they'll eventually appear in court. Will they spy on Americans? Collect intelligence on our military installations? Our own government apparently doesn't care to find out.

We're still learning about the horrific shooting in Nashville. But if early reports are accurate that a trans shooter targeted a Christian school, there needs to be a lot of soul searching on the extreme left. Giving in to these ideas isn't compassion, it's dangerous.

We're still learning about the horrific shooting in Nashville. But if early reports are accurate that a trans shooter targeted a Christian school, there needs to be a lot of soul searching on the extreme left. Giving in to these ideas isn't compassion, it's dangerous.

We're still learning about the horrific shooting in Nashville. But if early reports are accurate that a trans shooter targeted a Christian school, there needs to be a lot of soul searching on the extreme left. Giving in to these ideas isn't compassion, it's dangerous.

In the meantime, say a prayer for every kid who lost their life and every parent mourning a child. Christ have mercy.

With limited information, you are making an assessment of who should and who should not search their souls. I presume you also blame the free access to guns in Tennessee and the hatred for LGBTQ that you, personally, have abetted

A) you re a remarkably stupid and hateful creature

B) why don t you use what little brain power you have, to explain the relevant reality here: this is an ALUM of a Christian school who targeted it?

In the meantime, maybe work on some viable gun control legislation, rather than letting anyone who wants one own a goddamn gun. Trans. Straight Right Left. Up. Down. Black White. A little, "is this person okay to own one?" could go a long way.

How do you get "a little" of that?
Because it hasn't ever happened

As horr bly irresponsible and stupid as this tweet is, what about shootings not carried out by trans people? Any thoughts on how to stop those?
